

The Vision Charge

- **For Sections (Local Networks):**

What local and global structures would make it possible:

- for local networks to better serve their stakeholders, and thereby support the mission of the national organization?
- for the national office to serve the local networks more effectively?

What would those structures look like?

- **For Areas (Intellectual Domains):**

What local and global structures would make it possible:

- for members with specialized interests or constituencies to be more engaged in setting and advancing the mission of the national organization?
- for the national office to better support and serve members with specialized interests or constituencies?

What would those structures look like?
